About the Acta Veterinaria Eurasia

Acta Veterinaria Eurasia (Acta Vet Eurasia) is a peer-reviewed, open-access, online-only journal published by the İstanbul University-Cerrahpaşa.

Acta Veterinaria Eurasia is a continuously published journal in English. The journal has moved to continuous publication by volume from Volume 51. Rather than publishing content into three online issues per year, all articles are published into a single annual (January-December) volume which will fill throughout the year as each new article is published.

Continuous publication model allows articles to be immediately released online rather than waiting for other articles in the issue to be completed. This model enhances the visibility and accessibility of the latest developments in the field.

Journal History

As of 2018, the journal has changed its title to "Acta Veterinaria Eurasia".
